

Upon downloading or receiving the xlam file, first save it to your desktop or another convenient location. Then **Right-click** on the program icon, choose **Properties** from the drop-down menu, click the **Unblock** button at the bottom of the dialog box, and then click the **Apply** button and then click the **OK** button to the left of it. This step is necessary for the program to run. *(Be sure to hit Apply after Unblock and before OK.)*
